

## How to upgrade the ISP file of TP-Link Wireless Dual Band 4G LTE Router (new logo)?

### Step 1

Download the latest ISP file for your router from [www.tp-link.com](http://www.tp-link.com), then use unzip tools such as WinZIP or WinRAR to extract the file to a folder.

#### Note:

Please pay attention to the Notes of the ISP file you downloaded.

### Step 2

Log into the router's web management page:

[How to log into the web-based management interface of TP-Link Wireless Dual Band 4G LTE Router? \(new logo\)](#)

### Step 3

Go to Advanced > Network > ISP Upgrade. Click Browse to locate and select the latest ISP file, and click Upgrade.

#### ISP Upgrade

---

If you fail to dial-up Internet access after upgrading to the latest version, please contact us.
